

## **NEST USER GUIDE: Providers**

### **Uploading an image on NEST**

Good images can be the selling point for any property. They enhance the property description information and allow a person, who has the ability to view the image, to visualise the property.

In Nest, when you list a property, you have the ability to add or edit images.

#### **What to before uploading your images**

Before you upload an image, you need to make sure it will work on the Nest website. Please make sure your image meets the following requirements:

- Image is a readable file, JPG works best.
- Size of image is 2MB or under.
- Landscape images work best.
- For the feature photo (the image that will appear first) image size works best at 612 (length) x 1800 (width) pixels.
- For the remaining images, image size works best at 768 (length) x 1024 (width) pixels.
- Images are relevant to the property.
- Images are only of the empty property with no people visible.

#### **When you are ready to upload**

1. Log in to Nest at [gonest.com.au](http://gonest.com.au)
2. Click on "Your Properties". This will show you all the properties you have listed on Nest.
3. For the property that you want to add an image, click the link, "Add or edit images".

**+** Add or edit images

This will open a new webpage, where your images can be viewed. Click the green box with that says 'Add Images' with a plus (+) sign to select an image from your computer and add it.

## Add and Edit Images

Images are an important feature of your listing. It's good practice to include a photograph of the outside of property as well as communal living areas, outdoor spaces and a floor plan. Before you upload an image, read the Nest property image guidelines [Nest property image guidelines](#)

Alternatively, you can “Drag + Drop” multiple images from your computer.

4. After you have uploaded an image, hover your mouse over the image and click on the  button to add, change or edit the image details, including:

- Title
- Description
- If the image is a feature image
- If the image is a floorplan

Title \*

Front of home

Is feature image

Yes  No

Is this image a floorplan?

Yes  No

Description

Two storey home that is blue, with large garage on a flat block of land. |

Rotate 

Crop 

Save Image Settings

You can also rotate and crop the image as you wish.

5. Press “Save Image Settings” when you have completed all the information.
6. When you have finished uploading and editing all of your images, select ‘Save images’

Save images

### Deleting images

To delete an image or floorplan, hover your mouse over the image you wish to delete, and click on the delete icon (trash can).

If you need further assistance with uploading images, please contact us at [info@gonest.com.au](mailto:info@gonest.com.au)
